

Application No.: 10/759497

Case No.: 59495US002

Amendments to the Claims:

The following Listing of Claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

1. (currently amended) A compound comprising:
 - (a) an elastomeric copolymer having interpolymerized monomeric units derived from vinylidene fluoride monomer, at least one cure site moiety, and substantially no perfluorinated vinyl ether monomers;
 - (b) a peroxide curable component; and
 - (c) at least one mineral filler, such that upon vulcanization the resulting compound has a retraction at lower temperature (TR-10) of -20°C or less; and
 - (d) a peroxide.
2. (original) The compound according to claim 1, wherein said copolymer includes terpolymers or quadpolymers.
3. (previously presented) The compound according to claim 1, wherein said copolymer further comprises, tetrafluoroethylene, hexafluoropropylene, chlorotrifluoroethylene, pentafluoropropylene, vinyl fluoride, propylene, ethylene or combinations thereof.
4. (original) The compound according to claim 1, wherein said compound includes a blend of at least two copolymers.
5. (original) The compound according to claim 4, wherein at least two of said copolymers have a difference in fluorine content of at least 3 weight %.
6. (previously presented) The compound according to claim 1, wherein said copolymer further comprises ethylenically unsaturated monomers of the formula $\text{CF}_2=\text{CFR}_f$ where R_f is fluorine or perfluoroalkyl of 1 to 8 carbon atoms.
